

My Museum Part I

Grades 6-8

Pre-visit Activity

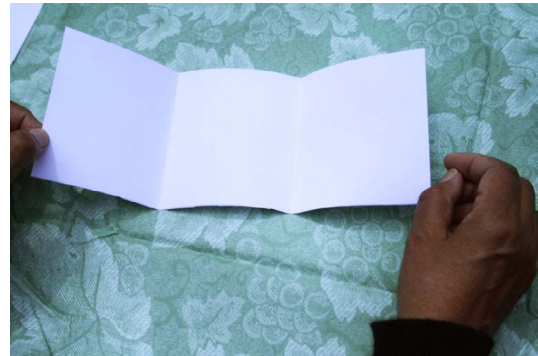

Build your own museum collection using a large sheet of paper and three images of your favorite items.

1. Select three of your favorite items using either photographs or images cut from magazines.

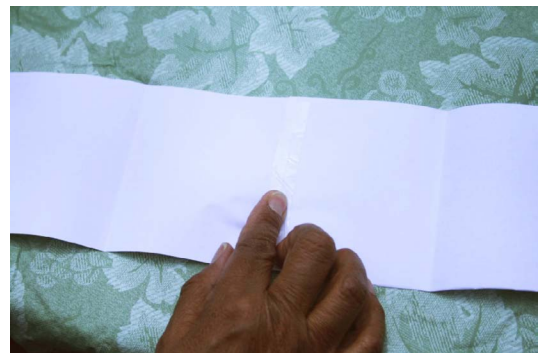

2. Fold piece of paper in half horizontally and then cut along the fold. This makes two pieces.

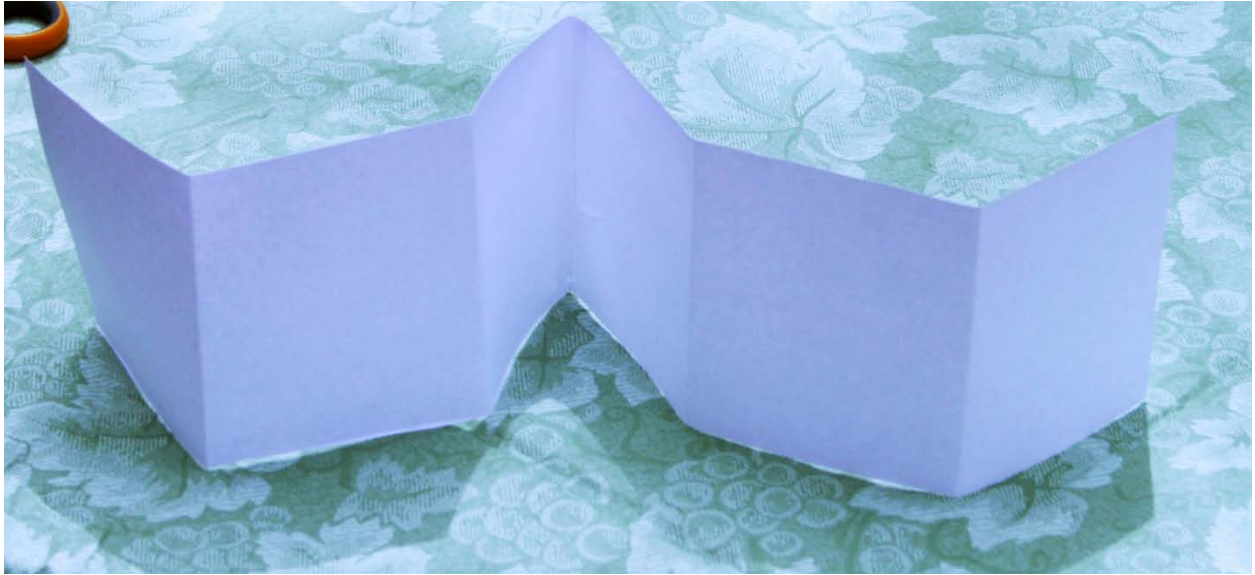

3. Fold each piece into three spaces.

4. Attach the two sections with a piece of tape. There are now six spaces on each side of the museum. (see template)

5. In three of the spaces, place the images with a title (see template).

6. In the other three spaces, place three sentences about why you chose this item. Why is this item important to you? Why did you collect this item? (see template)

7. In groups of four, choose one item and explain why you chose to include it.
